

Take me back

HAIM

Kane called up 'cause I wasn't home
Daddy took a message, didn't have a phone
Waiting out front just to get alone
But now I'm laughing

Alana lost her head when she had a crush
Billy St. Reams didn't wanna fuck
Bad GPA, couldn't get it up
And I remember it

Take me back
Take me back

Molly took a shit in the back of the truck
Didn't even notice, she was too coked up
Wants to be a dancer, but she had no luck
And more time's passing

Take me back
Take me back

(Take me back) I want it
(Take me back) Like I remember
(Take me back) Just thinking about it
(Take me back) Makes me emotional
(Take me back) I want it
(Take me back) Like I remember
(Take me back) Just thinking about it
(Take me back) Makes me emotional

All of my friends I loved, I still love
And all my lovers are locked in time
I can't pretend I got where I got
Without changing in my mind
And it keeps on running

Pulling out the petals "Does he love me or not?"
David only wants to do what David wants
Had a bald spot, now it's a parking lot
And I was there for it

In and out of love since I was nineteen
Made a few mistakes, now I'm coming clean
Yeah, I fucked it up, but I took the heat
And I learned from it

(Take me back) I feel it
(Take me back) Like a reverie
(Take me back) Just thinking about it
(Take me back) Puts you in front of me
(Take me back) I feel it
(Take me back) Like a memory
(Take me back) Just thinking about it
(Take me back) Brings us back to me

Take me back to driving
Smoking with the windows down

Trying to waste the day away
I never get to do that now

Take me back to Kling Street
Looking for a place to park
In an empty parking lot
Just so you could feel me up

Take me back to ditching
Take me back to getting off
Take me back to wishing
That nothing would be different

Take me back
Take me back
Take me back
Take me back
Take me back
Take me back

(Take me back) I feel it
(Take me back) Like a reverie
(Take me back) Just thinking about it
(Take me back) Puts you in front of me
(Take me back) I'm riding
(Take me back) Down my old street
(Take me back) Just thinking about it
(Take me back) Brings us back to me
