

# A Cell Divides

Haken

Preserved in time  
The insect comes alive  
The amber falls away  
The vector strikes  
How can such a tiny wound  
Cause me so much pain?

It's the beauty in the flaw  
The grace of imperfection  
Oh, oh  
Now I'm twisted out of form  
By unnatural selection  
Oh, oh

A horrifying violation  
Of a human form  
A cell divides and multiplies  
A strange mutation overrides  
And carbon copies into four

It's the beauty in the flaw  
The grace of imperfection  
Oh, oh  
Now I'm twisted out of form  
By unnatural selection  
Oh, oh

Alien impostor  
Pretender  
I'll keep you safe now  
Close to my heart

Alien impostor  
Pretender  
I'll keep you safe now  
Close to my heart

It's the beauty in the flaw  
The grace of imperfection  
Oh, oh  
Now I'm twisted out of form  
By unnatural selection  
Oh, oh

It's the beauty in the flaw

Oh, oh  
Now I'm twisted out of form  
By unnatural selection
