

Messiah Complex v: Ectobius Rex

Haken

Putrefied by the masses
We fall to rise through the suffering
Reign of fire, spread the ashes
Your victor cries, "Hail to the King!"

Crawl out of my skin
A cell keeps dividing
Memories of electricity
Rid this plague within
The veil finally lifts
Jumping from my tower of ivory

Crawl out of my skin
A cell keeps dividing
Memories of electricity
Rid this plague within
The veil finally lifts
Jumping from my tower of ivory
