

Snow

Haken

Mind open wide as i awake
I sense a change within the air
Hope fills my soul
I realise

Rising to see what lies ahead
Frost tainted pain calling my name
Come and feel what i can see

Frozen tears come to me
Echoes of a long lost memory
(gift of winter's dance)
Gift of winter's dance
Angel's floating down

Dancing alone i celebrate
Cascades of white exhilarate
Breath dissipates into the mist

Fingers of ice creep onto me
I feel the chill sneak into me
Come and hear what i can see

Someone's calling (someone's calling me)
Someone's calling (someone's calling me)
Snow is falling (angels falling free)
Angels falling (winter's dance is here)

Come to me mortal
Feel the wrath of winter
Hear me
Set me free
Spread my misery

Frozen land be still
Feel the wrath of winter
Curse thee
Ever be
Under my spell for eternity

Feel my rage
The anger within

Fear my need
To rip you apart

I will climb
To set things right

Your curse
Wont pass
As long as i stand

I have risen victorious
Seasons will return
(sun unleash your light)
Sun unleash your light

(guide me to my home)
Guide me to my home

Rays of golden light
Praise! The new beginning has arrived

Seeds of nature grow
I see roots of change break through the curse of the snow

Sky is open wide

Bring me floods of liquid light!

Sun has returned
Spreading light and warmth around us
Celebrate till the end
And the land will grow again

Burn fire burn
Light the faces of the elders
As we dance
As we sing
Celebrating till the end

La la la la la
Oh oh oh

Wine overflows
From the barrels of the vineyards
As we drink
As we smoke
And the herbs will grow again

Drunk with delight
Where the laughter is contagious
Rivers flow
Flowers grow
And the land is born again

La la la la la
Oh oh oh

Peace at last
Curse has passed
Seasons flow
We run free

Time restored
Winter waits
When it calls
We'll embrace

Peace at last
Curse has passed
Seasons flow
We're running free.
