

Runaway

Hale

I talked to you tonight
To sort things out the right
Way that we used to be
When you were still here with me

I wanted you to know
If you have loved me so
Then why didn't you let me know
'Cause I didn't wanna let you go

So why don't you just run away from here
'Cause I don't want you to get burned by me
This way
You loved me to the point where I was lost
And then I couldn't catch you there
Right there

So just run away
Run away from here
Won't you run away
Run away from here

And I will never know
If we could ever go
The way that we should be
The way that we should be

So why don't you just run away from here
'Cause I don't want you to get burned by me
This way
You loved me to the point where I was lost
And then I couldn't catch you there
Right there

So just run away
Run away from here
Won't you run away
Run away from here

Won't you run away
Run away from here
Won't you run away
Run away from here
Won't you run away
Run away from here
Won't you run away
Run away from here
