

# Chemicals

Halestorm

I am not insane  
Blame the chemicals inside my brain  
I need the pain to get me through  
Just like you

I'm so A.D.D. it's killing me  
Turning three two one, to one two three  
I need Adderall to fix my mind  
Chase it down with hundred-dollar wine

And people like to say I'm sick, try to find the wrong it in it  
Keep saying that I don't belong, tell me something's wrong

But you bleed like me, and you breathe like me  
Yeah, you hurt like me, we're all made of chemicals  
You love like me, have a heart that beats  
Yeah, you're just like me, chemicals

Spiderwebs and dial tones  
Some days there's just no one home  
Why can't the world leave me alone?  
Trash my laptop, flush my phone

But you bleed like me, and you breathe like me  
Yeah, you hurt like me, we're all made of chemicals  
You love like me, have a heart that beats  
You're a freak like me, chemicals

Give me love  
Oh, something real  
Give me love, yeah  
Something I can feel!

Give me love, something real, give me a heart that I can steal  
Give me a drug that I can feel  
I want your chemicals, I want your chemicals

Cuz you bleed like me, and you breathe like me  
Yeah you hurt like me, we're all made of chemicals  
You love like me, have a heart that beats  
You're a freak like me, chemicals

Yeah, you bleed like me, and you breathe like me  
Yeah, you hurt like me, we're all made of chemicals  
You love like me, have a heart that beats  
You're a freak like me, we're all made of chemicals
