Golden

Halestorm

Built your castle in the sky
Brick by brick not asking why
Hate from hurt and love is blind
Mind control and blurry lines

Bow my head and eat your shit (Ah ah ah ah)
Coddling your ignorance (Ah ah ah ah)
Held your hand and sang your praise (Ah ah ah ah)
Happily digging my grave (Ah ah ah...)

I used to believe in God, I used to believe in truth
I used to believe your love, I used to believe in you
You made me believe I'm dumb, that I'm nothing without you
Now I know that you were wrong, I used to believe in you
In you, in you

Broke from you and held my breath (Ah ah ah ah)
The real world hasn't killed me yet (Ah ah ah ah)
Pyrite is all you preach (Ah ah ah ah)
Now I only believe in me

I used to believe in God, I used to believe in truth
I used to believe your love, I used to believe in you
You made me believe I'm dumb, that I'm nothing without you
Now I know that you were wrong, I used to believe in you

This is the sound of me letting go...

This is the sound of me letting go...
I'm fuckin' golden
This is the sound of me letting go...
I'm fuckin' golden
This is the sound of me letting go...
I'm golden
This is the sound of me
I'm golden
Go!

I used to believe in God, I used to believe in truth
I used to believe in love, I used to believe in you

I used to know what you know
Now, I know what to do
This is the sound of me letting go
I used to believe in you

I'm fuckin golden
