

# How Will You Remember Me?

Halestorm

How will you remember me?  
What will be my legacy?  
Did I leave behind the best of me?  
Did I make you feel loved?  
Will you shed a tear or raise a glass?  
Wonder why it went by so fast  
Do you wish that you could wish me back  
And never let me go?

No one gets to see it  
The way our souls are leaving in the night  
We don't have time  
And I wish you would tell me  
Before tomorrow fails me  
And I can't get it right  
Let me make it right  
Life goes on in memories  
How will you remember me?

Tell me how will you remember us?  
Will you think about how we were young?  
Getting lost in dreams and getting drunk  
Didn't we have fun?

And living off the Indian summers  
Living for the springtime colors  
Knowing we'll still have each other  
When the wintertime comes

No one gets to see it  
The way our souls are leaving in the night  
We don't have time  
And I wish you would tell me  
Before tomorrow fails me  
And I can't get it right  
Let me make it right  
Life goes on in memories  
Tell me, how will you remember me?

No one gets to see it  
The way our souls are leaving in the night  
We don't have time  
And I wish you would tell me  
Before tomorrow fails me  
And I can't get it right  
Help me make it right  
Life goes on in memories  
Tell me, how will you remember me?

You're the light that shines for me  
Carries on my song for me  
And the only way I'm okay to leave  
Is if you remember me
