

# It's Not You

Halestorm

R: I'm in love with somebody  
Found someone who completes me  
I'm in love with somebody , oh yeah  
And it's not you

Read my finger whatcha gonna do?  
See these lips are all done talkin' to you  
I don't mean to bruise your ego  
But I've had you nailed down for so long  
And I don't see your name on my tattoo  
Hope you understand  
It's been a long time coming  
It's for the best  
No offense

R:

I know who you think you are  
Sorry I've turned you on but I'm kissing you off  
Your lines are whiskey and cigarettes  
They're not enough to make me forget  
I've got someone who has raised the bar  
I've heard it all before  
Stop spinning your wheels  
I'll show you the door  
No hard feelings

R:

You're probably never been shut down before.  
I'll try and make it easier

R:

It's not you.
