

Psycho Crazy

Halestorm

You say I need psychotherapy
Now you're making me mad
I say you quit trying to fix me
Or this is gonna get bad

If you want a battle, I'll give you a war
Think you control me, don't know what you're in for
Keep coming at me, keep coming, you'll see
Keep pushing, keep pushing, pushing on me

If you want crazy
I'll give you psycho
So don't make me mad
I'll get sick in the head
And show you what you don't know
If you want crazy
I'll give you psycho

You say I've got problems, got issues
And it's all in my head
But don't get it twisted, you just might misunderstand
You're the reason I am

I may go ballistic or better, unhinged
In my straightjacket on needles and pins
But don't you forget that you started this shit

If you want crazy
I'll give you psycho
So don't make me mad
I'll get sick in the head
And show you what you don't know
If you want crazy
I'll give you psycho

If you want crazy
I'll give you psycho
If you want crazy
I'll give you psycho
If you want crazy
I'll give you psycho
If you want crazy
I'll give you psycho

It always comes down to you versus me
But I won't break
'Cause this time I'm fighting for me
For everything you took away
So keep pushing on me

Pushing, pushing, pushing on me
Keep pushing, pushing, pushing on me

If you want crazy
I'll give you psycho
So don't make me mad
I'll get sick in the head

And show you what you don't know
If you want crazy
I'll give you psycho
So don't make me mad
I'll get sick in the head
And show you what you don't know
If you want crazy
I'll give you psycho
