

# Rock Show

Halestorm

Little girl  
You like it loud  
Come alive in the middle of a crowd  
You wanna scream  
You wanna shout  
Get excited when the lights go down

At the rock show  
You'll be right in the front row  
Heart and soul, they both know  
It's where you gotta be

Little girl, there you are  
All the lighters looking just like stars  
Sing along, feel the sound  
Take a ride on the hands of the crowd  
Here it comes, the moment when  
You know you'll never be the same again  
Power chord, see the light  
You found your place in the world tonight

At the rock show  
You'll be right in the front row  
Heart and soul, they both know  
It's where we gotta be  
Yeah at the rock show  
Getting high on the solo  
So what if it's crazy?  
That's gonna be me

This goes out to anyone one  
Whose heart beats like a kick drum  
When a bitchin' riff comes  
Knows the words to every line, every time  
And you know you gotta go get some, get pumped  
Find yourself and lose it

At the rock show  
I'm looking at the front row  
Heart and soul, we both know  
It's where we gotta be  
Yeah at the rock show  
We're reaching for the high notes  
So what if we're crazy?  
You're coming with me  
You're coming with me  
You're coming with me  
So what if it's crazy?  
It's where we gotta be  
At the rock show
