

## Sweet Love

Halestorm

After rocking with my boys  
After shaking all the hands  
I'll be talking to the press  
Signin' people's chests  
And hanging with the fans

After washing up my face  
After letting down my hair  
I'll be takin' off my heels  
Puttin' on my chucks  
And waitin' for you there

Cause I want the sweet love  
To get me through  
I want, I want sweet love  
And I know that you want it too  
So give me the sweet love  
To get me by  
I want, I want sweet love  
Every night until I die

It's nice to have a special friend  
Someone that I can call my own  
Someone to keep me on the ground  
When my world is spinning round  
And remind me of my home

You're a scary looking guy  
Whose quick to jump into a fight  
But when I have a bad day  
You know just what to say  
Im so glad that you're mine

Cause I want the sweet love  
To get me through  
I want, I want sweet love  
And I know that you want it too  
So give me the sweet love  
To get me high  
I want, I want sweet love  
Every night until I die

Until I die  
Til I die  
Til I die

Give me the sweet love  
To get me through  
I want, I want sweet love  
And I know that you want it too

So give me the sweet love  
To get me high  
I want, I want sweet love  
Every night until I die

Until I die

Give me the sweet love  
Sweet love  
Until I die  
Until I die
