

# Every Single Time

Haley Blais

I'm wasting away, there's blood in my veins that cannot stay  
I'm turning to dust, I'm ruin and rust  
You're gracious and green  
The best that I've seen  
And I've seen a lot  
Or so I thought

'Cause every single time you go  
Always there's a bigger hole  
And I know just what you're thinking  
Might as well start drinking  
Every single time you leave  
Always takes a piece of me  
My heart, my soul, my love, my whole  
My heart and soul my loved one, where'd you go
