

## Ready Or Not

Haley Blais

Gardening my heart  
Planting seeds just to watch it fall apart  
And I'm finding it harder to breathe  
Maybe I'm just allergic to weeds

Thought I deserved a prize  
But waiting is no way to live a life  
It only left a scar  
Doubted every single part

And now I see what it's about  
Drowning me, then dry me out  
Careful things you've now forgot  
About me now, ready or not

And now I see what it's about  
Drowning me, then dry me out  
In the bed where you would lie  
So did I, so did I

So did I  
So did I  
So did I  
So did I

You said you were scared, totally unprepared  
Thinking the rules don't apply  
Well so did I, so did I

So did I  
So did I

Gardening my heart  
Planting seeds just to watch it fall apart  
Maybe we were all weeds  
Pluck it out plant more seeds
