

## Small Foreign Faction

Haley Blais

I'm just a foreign faction  
Irreconcilable conflict at parties  
I feel like a chain reaction  
But sadly I don't know how it started

I never wanted anything and  
I never got it  
I never wanted anything and  
I never got it

I like to sit around fires  
And catch the embers on my tongue  
Listening to a church choir  
Sing some hymns about someone

I never wanted anything and  
I never got it  
I never wanted anything and  
I never got it  
I never wanted anything and  
I never got it  
I never wanted anything and  
I never got it

I'm just a foreign faction  
Irreconcilable conflict at parties  
I feel like a chain reaction  
But sadly I don't know how it started

I never wanted anything and  
I never got it  
I never wanted anything, yeah  
Look I got it  
Look I got it
