Oh happiness

Oh happiness

```
I fell in love with a devilish man
He was the only man I knew
I fell in love with a devilish man
He was the only man I knew
And he took me to the river and showed me to the water so blue
Charles' winter, Charles' winter was the only light I saw
Charles' winter, Charles' winter was the only light I saw
And he took me to the river and showed me to the devils jaw
But happiness is in the cold black dirt
Oh happiness is in the cold black dirt
So take your man and hike up that skirt, girls, and show him to the water so
blue
I fell in love with a devilish man
He was the only man I knew
I fell in love with a devilish man
He was the only man I knew
And he took me to the river and showed me to the water so blue
Oh happiness is in the cold black dirt
Oh happiness is in the cold black dirt
So take your man and hike up that skirt, girls, and show him to the water so
blue
Oh happiness
Oh happiness
```

Oh happiness is in the water

So happiness is in the water

So happiness is in the water so blue
