

# Kismet Kill

Haley Bonar

I lick the salt and toss my hair  
Don't I remind you of somebody somewhere subtle  
Don't waste your time, if you wanna catch me  
You're no friend of mine

You ain't no Romeo  
Not my first rodeo and now  
We're the kids who got kids at parties  
I was impossible when I was beautiful and now  
Cartoon deaths just don't seem so funny  
I got a death wish by my side  
So don't you wanna take me for a ride?  
We can leave together, sleep in the car  
Silver firecracker knows where we are

We're younger than we think  
Crying the kitchen sink and when  
Did I bury my dreams of running?  
I was impossible when I was beautiful and now  
I'm the kismet kill nailed beside you

You ain't no Romeo  
Not my first rodeo and now  
We're the kids who got kids at parties  
I was impossible when I was beautiful and now  
I'm the kismet kill nailed beside you  
Nailed beside you
