

# LA

Haley Joelle

I never think of you when I'm stuck in my car  
During sunset on Ventura Boulevard  
The thought of you is far away here  
That's my favorite part cause

I only think of you when my mind wanders east  
And it hurts me for a second but at least  
It was halfway 'cross the country  
So it didn't ruin much for me  
I wish you were here some days  
But you can't erase a memory once it's made

But we'll always have Chicago  
You can't take that away  
And you'll always have London  
And our phone calls in the rain

But if you break my heart at home  
I'll be reminded every day  
Of all the things that you could take  
Please just let me have LA

I don't see you when I'm out at 2am  
And you don't even know any of my friends  
Call me selfish but I think it's best to keep it that way  
I only see you in the corner of my mind  
When I think back to the way we talked that night  
And I miss it but if you were here this city'd never be the same

But we'll always have Chicago  
You can't take that away  
And you'll always have London  
And our phone calls in the rain

But if you break my heart at home  
I'll be reminded every day  
Of all the things that you could take  
Please just let me have LA

You can even have Chicago  
I'll give it all away  
I'll stay away from London  
I won't call you when it rains

Cause if you break my heart at home  
I'll be reminded every day  
I'll forget you and as a trade  
Please just let me have LA
