

Somewhere In Between

Haley Joelle

Somewhere in between midnight and 3am
A crowded bar with all our friends
You looked at me and something just felt different
And suddenly we're crossing more than city lines
I'm at your place, on London time
We're acting like it's nothing but it isn't

You can't say you don't have the thought
Are we gonna do this or not?

'Cause we're somewhere in between
Someone to love, someone to leave
We can't pretend it's black and white
When you've been kissing me goodnight
You've got your reasons, I do too
We blame it on distance, or "too soon"
Tell me, should we just let it be
Or can we meet
Somewhere in between?
Mmmm

Somewhere in between giving you time to heal
And not denying how I feel
I give you space, then you get sad
And tell me things you can't take back
Like "I'll miss you when you're in LA"
And "you always have a place to stay"
Then it's right back to the silence
And we're right back in the grey

Yeah we're somewhere in between
Someone to love, someone to leave
We can't pretend it's black and white
When you've been kissing me goodnight
You've got your reasons, I do too
We blame it on distance or "too soon"
Tell me, should we just let it be
Or can we meet
Somewhere in between?
Mmmm
Somewhere in between

Somewhere in between midnight and 3am
A crowded bar with all our friends
You looked at me and something just felt different
