

Us Like This

Haley Joelle

Mmmmm

Mmmmm

Don't get out of bed yet
Or open up the blinds
Keep your hair still messy
Like it was last night
No don't move a finger
Leave the world outside
Don't go make us coffee
Stay here by my side
'Cause I'm not quite ready
To let this moment die

If we both know this can't work out
Can we end it how we are right now
And leave every single thing
Just the way it is?
Before our lives get in the way
Before my heart begins to break
Stay still so I can memorize everything I'll miss
And remember us like this
Oooo
Remember us like this
Oooo

Tired from sangria
Laughing till we cry
Can we leave it frozen?
Can we hold on tight?
Don't move The Beatles picture
Hanging on the wall
Just in case I miss you
When summer turns to fall

If we both know this can't work out
Can we end it how we are right now
And leave every single thing
Just the way it is?
Before I lose you all the way
Before my heart begins to break
Stay still so I can memorize everything I'll miss
And remember us like this
Oooo
Remember us like this
Oooo
Oooo
Oooo

Don't get out of bed yet
Or open up the blinds
Let me take a photo
Of us in my mind
