

# Bad Light

Haley Reinhart

Hollywood hills  
They got you dreaming  
Feeding you pills  
Trying to build you  
Make you feel better  
They'll pay all your bills  
Yeah they'll do whatever

Ou ouu  
Guess that's enough for you  
Enough for you  
Ou ouu  
I'll never fall for you  
Never fall for you

It's a bad light  
A bad light  
When you're standing on top you ain't looking up  
When you're standing on top you ain't looking up  
Bad light  
A bad light  
When you're standing on top you ain't looking up  
When you're standing on top you ain't looking up

Hollywood honnies  
With sugar dad moneys  
Don't get me started  
Plastic fantastic  
Seems rather tragic  
Go do your eight ball  
Isn't it magic

Ou ouu  
Is that enough for you  
Enough for you  
Ou ouu  
I'll never fall for you  
Never fall for you  
It's a bad light  
A bad light  
When you're standing on top you ain't looking up  
When you're standing on top you ain't looking up  
Bad light  
A bad light  
When you're standing on top you ain't looking up  
When you're standing on top you ain't looking up

Ouu  
When you're standing on top you ain't looking up  
When you're standing on top you ain't looking up  
Ouu  
When you're standing on top you ain't looking up  
When you're standing on top you ain't looking up

Bad light  
A bad light  
When you're standing on top you ain't looking up

When you're standing on top you ain't looking up  
Bad light  
A bad light  
When you're standing on top you ain't looking up  
When you're standing on top you ain't looking up

It's a bad light  
A bad light  
When you're standing on top you ain't looking up  
When you're standing on top you ain't looking up  
It's a bad light  
A bad light  
When you're standing in top you ain't looking up  
When you're standing on top you ain't looking up
