

Bad Light

Haley Reinhart

Hollywood hills
They got you dreaming
Feeding you pills
Trying to build you
Make you feel better
They'll pay all your bills
Yeah they'll do whatever

Ou ouu
Guess that's enough for you
Enough for you
Ou ouu
I'll never fall for you
Never fall for you

It's a bad light
A bad light
When you're standing on top you ain't looking up
When you're standing on top you ain't looking up
Bad light
A bad light
When you're standing on top you ain't looking up
When you're standing on top you ain't looking up

Hollywood honnies
With sugar dad moneys
Don't get me started
Plastic fantastic
Seems rather tragic
Go do your eight ball
Isn't it magic

Ou ouu
Is that enough for you
Enough for you
Ou ouu
I'll never fall for you
Never fall for you
It's a bad light
A bad light
When you're standing on top you ain't looking up
When you're standing on top you ain't looking up
Bad light
A bad light
When you're standing on top you ain't looking up
When you're standing on top you ain't looking up

Ouu
When you're standing on top you ain't looking up
When you're standing on top you ain't looking up
Ouu
When you're standing on top you ain't looking up
When you're standing on top you ain't looking up

Bad light
A bad light
When you're standing on top you ain't looking up

When you're standing on top you ain't looking up
Bad light
A bad light
When you're standing on top you ain't looking up
When you're standing on top you ain't looking up

It's a bad light
A bad light
When you're standing on top you ain't looking up
When you're standing on top you ain't looking up
It's a bad light
A bad light
When you're standing in top you ain't looking up
When you're standing on top you ain't looking up
