

Bring The Love Back Home

Haley Reinhart

Two three four...

Everything is such a pity
Never got to see the city life
Colorblinded by the lion
Not complying, propaganda lies
Now all these alienating internet ages
[?]

And I'm in love
But how the hell did we get here?
Our love is strong
So bring the love back home

I seem distant, take a question
[?]
Synchronizing [?]
Energizing interstellar sound
Wiser people come together
Now or never
Gather all around

And I'm in love
But how the hell did we get here?
Our love is strong
So bring the love back home

And I'm in love
But how the hell did we get here?
Our love is strong
So bring the love back home
And I'm in love
But how the hell did we get here?
Our love is strong
So bring the love back home (listen up)
And I'm in love
But how the hell did we get here?
Our love is strong
So bring the love back home (one more time)
And I'm in love
But how the hell did we get here?
Our love is strong
So bring the love back home
