

# Change

Haley Reinhart

Can't stop the rain  
Watch it pouring down  
I thought the worst was over  
But, still, it's all around

So you say that thing have changed, yeah  
But in truth, it's all the same  
Don't you know revolution,  
Will take more than just one day?  
So let's be the best we can

Be the change, make a change  
Be the change, make a change  
Make a change, be the change  
Make a change, be the change  
Be the change, make a change  
Be the change, make that change  
Make a change, be the change  
Make that change, go

Look up to the sky  
Search for reasons why  
It's time we realize  
The answers live inside

So you say that thing have changed, yeah  
But in truth, it's all the same  
Don't you know revolution,  
Will take more than just one day?  
So let's be the best we can

Be the change, make a change  
Be the change, make a change  
Make a change, be the change  
Make a change, be the change  
Be the change, make a change  
Be the change, make that change  
Make the change, be the change  
Make that change

Make that change  
Be the change  
Make the change today  
Make the change  
Be the change  
Make a change today  
Come on

You say that things have changed  
But in truth, it's all the same  
Don't you know revolution,  
Will take more than just one day?  
So let's be the best we can

Be the change, make a change  
Be the change, make a change  
Make a change, be the change

Make a change, be the change  
Be the change, make a change  
Be the change, make that change  
Make a change, be the change  
Make that change

Make that change  
Be the change  
Make that change today  
Make the change  
Be the change  
Make that change today
