

Deep Water

Haley Reinhart

Mmm...

You're a bad habit
That I wanna regret
Breathe you in from afar
No I ain't done yet

Just one drag of you
Feel like I need the patch
Stead I'm feigning for a kick drum
Inside my chest

Why you keep me waiting
Pull me down
Out this smokey cloud
I'm in

I'm in deep deep water
With my shallow thoughts
Won't you please please save me
Make me say oh my god

Mmm...

Down the rabbit hole
Once the night time goes
Is the grass greener
After summer's gone

What you dreamin' about
Just wanna smack myself
What kinda make believe
Am I livin' in

Why you keep my waiting
Pull me down
Out this smokey cloud
I'm livin' in

I'm in deep deep water
With my shallow thoughts
Won't you please please save me
Make me say oh my god

Mmm...

I might never love again
I might never love
I might never love again
I might never love

I'm in deep deep water
With my shallow thoughts
Won't you please please save me
Make me say oh my god

I might never love again

I might never love
I might never love again
I might never love

I might never love again
I might never love
I might never love again
I might never love

I might never love again
I might never love
I might never love again
I might never love
