

Off The Ground

Haley Reinhart

We all have hard times
Living divided lives
Lost in our own world
Passing each other by
When everything is going wrong
And it seems there's too much going on
The sun, it still shines high
Another day is soon to come

I've been down before
Dark and lonely road
But it's a choice, you know
Find the way to go

Gotta keep off the ground
All the dreams you want are real now
Gotta reach up through the highest cloud
Can't imagine ever coming down
Ooh, gotta keep off the ground

No, it ain't easy
When faith has lost its way
But even in my darkest nights
I know I'll be okay
I got way too much to lose
Not showing any gratitude
And this life is meant for living
That's what we're here to do

I've been down before
Dark and lonely road
But it's a choice, you know
Find the way to go

Gotta keep off the ground
All the dreams you want are real now
Gotta reach up through the highest cloud
Can't imagine ever coming down
Ooh, gotta keep off the ground
All the dreams you want are real now
Gotta reach up through the highest cloud
Can't imagine ever coming down
Ooh, gotta keep off the ground
All the dreams you want are real now
Gotta reach up through the highest cloud
Can't imagine ever coming down
Oh, gotta keep off the ground
All the dreams you want are real now
Gotta reach up through the highest cloud
Can't imagine ever coming down
Oh, gotta keep off the ground

Off the ground
Off the ground
Off the ground
Gotta keep off the ground
