

# Some Way Some How

Haley Reinhart

Here I am  
Oh with you  
Dust within my soul  
And there you are  
Have you had enough yet  
Laid to rest  
I wanna change no more regrets

I feel it now  
More than before  
And you knew it back then  
Well deep at your core  
I'm standing here  
And I'm wanting more

Someone tell me why have we waited for so long  
When I know that we're not too far gone  
We can change, I have changed, I'll show you now  
We can save us some way some how

There you are  
In plain view  
Beauty you only knew  
I look to the sky  
To the ocean's hue  
It wasn't till now  
That I see the real you

I feel it now  
More than before  
And you knew it back then  
Well deep at your core  
I'm standing here  
And I'm wanting more

Someone tell me why have we waited for so long  
When I know that we're not too far gone  
We can change, I have changed, I'll show you now  
We can save us some way some how

Ohhh ohhh ohhh ohhh  
Ohhh  
If you just take my hand  
We can make it there, make it there  
Ohhh

Someone tell me why have we waited for so long  
When I know that we're not too far gone  
We can change, I have changed, I'll show you now  
We can save us some way some how  
Some way some how  
Some way some how  
Some way some how
