

## Dodge the Rubble

Half Moon Run

It's right where your kids go to school  
It's all in your lakes, it's in your pools

I don't know what to do  
And it's wearing me down, down

It looks like your friends, it looks like your lovers  
Comfy and covered beneath the sheets  
And I block out the sun behind the shutters  
Can't trust the light, can't trust the heat

I don't know what to do  
And it's wearing me down, down  
Yeah, it's all I can do  
But it's wearing me down, down

It's right where your kids go to school  
Holding your hands, staying out of trouble  
Things get a bit messy when I'm walking home  
Get to touch rough to dodge the rubble

I don't know what to do  
And it's wearing me down  
And it's all I can do  
But it's wearing me down, down
