

## Favourite Boy

Half Moon Run

Well, I heard you've got that show tonight  
Don't you know that I wanna be there  
But I gave my name to the girl at the door  
When you knew that it wasn't there

Now I know I'm not your favourite boy  
I can see it in the way you fake your smile  
At least you could say I was good to you  
At least you could say I tried, alright

And I know how it feels to look at you  
Know you've got a lotta eyes  
And you look so good in that summer dress  
Against the colour of the sky

And I don't know how it started  
Don't know what to believe  
Your head upon my shoulder  
Or the ringing in my ears

I don't know what's happening...

Now here we are in the red moonlight, girl  
Ooh just waiting on a feeling  
And I know I'm not the only one  
That stopped believin'

Now I'm floating a million miles away  
Just floating on a breeze  
I see you in my nightmares  
I see you in my dreams

I don't know how it started  
Don't know what to believe  
Your head upon my shoulder  
Or the ringing in my ears

I know I'm not your favourite boy  
I can see it in the way you fake your smile
