

Goodbye Cali

Half Moon Run

Don't look back
I've got to get back on the bus intact
I've got to get back on my buzz in fact
I keep sleepin' it off with the panic attacks

Ok back on track
Losin' it all
Keep makin' it back
Keep thinkin' of quitting
But I can't keep track
When I'm losing
When I'm winning
And it's all going black
Uh huh

(Yummy yummy yummy oceanside
Gotta have a goodbye
Yummy yummy yummy oceanside
Would you let me into your world)

Lake Superior
Chicago
St Augustin
Montreal
Say goodbye California

So let's cold start this engine
The click is on, guitar is in
The kick hat snare clap beat begins
And over the top I'm mumblin', ramblin', bumblin'

Can we just stop and start again
I got this part with proferrin'
It's kinda like a key change bridgey thing
Before we start, turn up everything!
