

## Grow into Love

### Half Moon Run

Yes I know what it means  
To have six years behind us in waiting  
Not but a shadow remains  
Well you took what was left worth taking

This is only begun  
I, I do not know  
If I could just  
Grow into love with you  
If you could grow too

I have to get out of this place  
But instead I'm at peace with staying  
Are we both come and go as we please  
Well I guess that's the game that we're playing

This is only begun  
I, I do not know  
If I could just  
Grow into love with you  
If you could grow too

I came to my senses alone  
In the bed where my eyes was lying  
It was there that my thoughts turned to you  
Waylaid by the light that was dying  
And was backed by the wails of a siren

This is only begun  
I, I do not know  
If I could just  
Grow into love with you  
If you could grow too

This is only begun  
I, I do not know  
If I could just  
Grow into love with you
