

Beige

half•alive

We got the same [?], by
We got to save our love, you called it

Been keeping you out of my mind
Until I see you it reminds me
Of all of the times you would meltdown
Back then I didn't know why
Now I'm in the same place
But this time it's different
Now we're just working
You're not my girlfriend
But I know you better than anyone else here
Now this is familiar
You're having a meltdown
And nobody else knows why
But I know you, don't I
I know what you don't like
The color beige, Halloween
Getting surprised by anything
Back then it was a dream
Was it all a dream? Was it even real?
Summerland became real
It was too sweet, doing cartwheels

Playin' my mind on repeat (On repeat)
How can I fall asleep?
I loved you, now you'll never leave (Never leave)
How can I fall asleep now?

We got the same [?], by
We got to save our love you called it [?]
We got the same [?], by
We got to save our love you called it [?]

So I comforted you when you needed it
Gave you the space to be frustrated
I know it's hard, but you're doin' fine
Help me close, apologize
Then you drank too much, I was not surprised
That you held me tight

But you held on
Why'd you hold on?
Weren't you the one who called it off?

Playin' my mind on repeat
How can I fall asleep?
I love you, now you'll never leave
I guess it's never over
Playin' my mind on repeat
How can I fall asleep?
I loved you, now you'll never leave
How can I fall asleep now?
Oh, no, no
How can I fall asleep now? Oh
How can I fall asleep now?
