

Never Been Better

half•alive

Hey you
What you been up to
You asked me last night
You said it looks like
You're living your best life

I said never
I've never been better
'Cause that's what it looks like
I didn't want to change your mind

At the top congratulations
Heart so full I know I'll break it
If I fall and hit the pavement

I'm looking down my head is racing
Scared of all these dreams I'm chasing
On the edge, like I said

I've never been better
Never been better

Hey you
You've got the best view
Could you tell me, how it feels
Living in the highlight reel

How do I explain to a stranger
I'm not having a good year
I say I'm great
Move on with my day
'Cause the truth's too much to hear

At the top congratulations
Heart so full I know I'll break it
If I fall and hit the pavement

I'm looking down my head is racing
Scared of all these dreams I'm chasing
On the edge, like I said

I've never been better
Never been better

Hey you
What you been up to

At the top congratulations
Heart so full I know I'll break it
If I fall and hit the pavement

I'm looking down my head is racing
Scared of all these dreams I'm chasing
On the edge, like I said

I've never been better
Never been better
