

everybody knows it

Halfives

I wanna turn back time
'Cause life was much better when I was nine
How can you sleep at night
When everybody knows it? Everybody knows it

Don't wanna see the apocalypse
We hide behind our fingertips
I know you know we know
Yeah everybody knows it, everybody knows it

La la la la la
La la la la la la la
(Sing it!)
La la la la la
La la la la la la la

You gotta hear it now
The world is burning down
And everybody knows it, everybody knows that
We're all bound to drown
And everybody knows it, everybody knows it

(La la la la la)
Don't wanna see the apocalypse
(La la la la la la la)
We hide behind our fingertips
(La la la la la)
I know you know we know
Yeah everybody knows it, everybody knows it

You're making me stress out
I'm choking in anxiety, self doubt
Yeah, I think I'm gonna freak
'Cause everything is burning, everybody knows it

La la la la la
(And in case you didn't know)
La la la la la la la
(You are burning with us)

You gotta hear it now
The world is burning down
And everybody knows it, everybody knows that
We're all bound to drown
And everybody knows it, everybody knows it

(La la la la la)
Don't wanna see the apocalypse
(La la la la la la la)
We hide behind our fingertips
(La la la la la)
I know you know we know
Yeah everybody knows it, everybody knows it

Fuel to the flame
Fuel to the flame
You so don't give a fuck it's driving me insane

Fuel to the flame
Fuel to the flame
You burn it to the ground then you don't take the blame

The world is burning down
And everybody knows it, everybody knows that
We're all bound to drown
And everybody knows it, everybody knows it

(La la la la la)
Don't wanna see the apocalypse
(La la la la la la la la)
There's only lies behind your lips
(La la la la la)
I know you're full of shit
And everybody knows it, everybody knows it

Fuel to the flame
Fuel to the flame
You so don't give a fuck it's driving me insane
