

Time Bomb

Halflives

What will I do now?
Can't stop this countdown
Three years on the road to find myself so broke
One more show and I explode

Oh my
I'm never on time
How did I miss the warning sign?
I sleep to kill time
Don't think 'bout hard times
Forget that all the blame is mine
I'm out of time

I've been sitting on a time bomb
Pretending I don't care
Time bomb
Pretending it's not there
Time bomb
I hear it ticking in my brain
Driving me insane

What could I have done
To fix what I've become?
Drop the match, light the fire
Flames are growing higher, higher
I hear ticking, ticking, God it's driving me mad

Oh my
I waste too much time
Is it too late to change my mind?
I messed up big time
I'm sick of this rhyme
Oh, I know all the blame is mine
I'm out of time

I've been sitting on a time bomb
Pretending I don't care
Time bomb
Pretending it's not there
Time bomb
I hear it ticking in my brain
Driving me insane
Time bomb (woah-oh-oh-oh)
Time bomb (woah-oh-oh-oh)
I'm sitting on a time bomb
I hear it ticking in my brain
Driving me insane
Time bomb
Time bomb

Now I know I couldn't beat the clock
All I hear is tick-tock-tick-tock-tick-tock

I've been sitting on a time bomb
Pretending I don't care
Time bomb
Pretending it's not there

Time bomb
I hear it ticking in my brain
Driving me insane
Time bomb (woah-oh-oh-oh)
Time bomb (woah-oh-oh-oh)
I'm sitting on a time bomb
I hear it ticking in my brain
Driving me insane
Time bomb
