## Halflives

Don't you know that I'm always right  
You're the one I keep up at night  
I'm a parasite inside your head  
I won't let you rest until you're dead

I've had my doubts, I'll live with them  
But you will never be a part of who I am  
I told myself that I would stop  
But now I'm hitting you with everything I got

'Cause I'm coming at you like a valkyrie  
Now I'm breaking the laws of your gravity  
I've got a feeling that I'm never gonna stop  
I've got a feeling that I'm headed to the top  
'Cause I'm coming at you like a valkyrie  
And I'm free from the pull of your fantasy  
I've got a feeling that I'm never gonna stop  
I've got a feeling that I'm headed to the top

I'm headed to the top  
I've got a feeling that I'm headed to the, I'm headed to the top

Fight me now and I'll show you teeth  
Time to learn how it feels to bleed  
You thought you were the master of the game  
But now the rules have changed, and that's a shame

I love this era where I am free  
So don't bother me with your apologies  
Now brace yourself, it's gonna hurt  
You played with fire for too long and now you burn

'Cause I'm coming at you like a valkyrie  
Now I'm breaking the laws of your gravity  
I've got a feeling that I'm never gonna stop  
I've got a feeling that I'm headed to the top  
'Cause I'm coming at you like a valkyrie  
And I'm free from the pull of your fantasy  
I've got a feeling that I'm never gonna stop  
I've got a feeling that I'm headed to the top

I'm headed to the top  
I've got a feeling that I'm headed to the, I'm headed to the top  
I'm headed to the top  
'Cause I'm coming at you like a valkyrie  
I've got a feeling that I'm headed to the, I'm headed to the top

I felt rejected  
So disconnected  
From your holy orbit in the sky up above

'Cause I'm coming at you like a valkyrie  
Now I'm breaking the laws of your gravity  
I've got a feeling that I'm never gonna stop  
I've got a feeling that I'm headed to the top  
'Cause I'm coming at you like a valkyrie  
And I'm free from the pull of your fantasy

I've got a feeling that I'm never gonna stop  
I've got a feeling that I'm headed to the, I'm headed to the top

I'm headed to the top  
I've got a feeling that I'm headed to the, I'm headed to the top
