

# All Sides

HalfNoise

And all sides  
Our windows are closing  
Our cars outside  
Drive into the water

But no  
You never had to say goodbye to me  
Until now  
We become each other's memories

And the doors are up  
And the lights are on  
And I'll wonder I see you  
And the doors are up  
And the lights are on  
And I'll wonder I see you

But no  
You never had to stay in love with me  
Until now  
We become each other's memories

I love you now  
And always  
I love you now  
And always

But no  
You never had to say goodbye to me  
Until now  
We become each other's memories
