

# Always Young

HalfNoise

All the things we had are gone  
I didn't even hold on to long  
All the dreams we had are gone  
What should I even hold on to?

We were always young  
Inside the sun  
No I am not young  
Now that you're gone

All the dreams we had are gone  
I didn't even hold on too long  
All the dreams we had are gone  
What should I even hold on to?

We were always young  
Inside the sun  
No I am not so young  
Now that you have gone
