

Know It's Her

HalfNoise

And I know it's her
From everything that she does
And I know it's her
From everything that she does
And she knows it's me
'Cause she can't escape my love
And she knows it's me
'Cause she can't escape my love
And I know it's her
'Cause I know everything she does
And I know it's her
From everything that she does
