

Last Day On Earth

HalfNoise

Young disbelievers
They're young in love and everything else
They didn't believe us
But then again I wouldn't
Young believers
They're eyes are young in everything else
I couldn't leave her
We got to take our one last breath

I didn't know it was our last day
I didn't know it was our last day

I didn't know it was our last day
I didn't know it was our last day on earth

I didn't know it was our last day
I didn't know it was our last day on earth

I didn't know it was our last day
I didn't know it was our last day on earth

Young disbelievers
They're young in love and everything else
They didn't believe us
But then again I wouldn't
The young believers
They're eyes are young in everything else
I couldn't just leave her

I didn't know it was our last day
I didn't know it was our last day

I didn't know it was our last day
I didn't know it was our last day on earth

I didn't know it was our last day
I didn't know it was our last day on earth
