

Love In New York

HalfNoise

Walking down the busy streets
All these people don't matter to me
Cause I keep dreaming that you keep dreaming about us
And all that love that we had surrounding us

Then I tell myself not to shatter like glass
The only time it really mattered in my whole life

So we keep walking to find her place
There's no more reason to stay out this late
But I keep dreaming that you keep dreaming about us
And all that love that we had surrounding us

Then I tell myself not to shatter like ice
The only time it ever mattered in my whole entire life

We took the Rockaway train
She couldn't remember the right way
But I keep dreaming that you keep dreaming about us
And all that love that we had surrounding us

I keep telling myself not to shatter broken glass
The only time it really mattered in my whole entire life

To fall in love
In New York
In New York
To fall in love
In New York
In New York

But I keep dreaming that you keep dreaming about us
And I'll keep dreaming if you keep dreaming about us
