Only You

HalfNoise

Okay, I guess I'll get out of bed
But that's alright when I'm with you
Some days I can't get out of my head
But I will try and push on through

Only you, can make me feel fine
Only you, only you
Only you, can help me survive
Only you, only you

With my old friends I never have to pretend
I'm alright, alright
Regrets love to blow in the wind
But I will try to push on through

Only you, can make me feel fine
Only you, only you
Only you, can help me survive
Only you, only you

On some days I can live in regret
And deny, I let it through

Only you, can make me feel fine
Only you, only you
Only you, can help me survive
Only you, only you

Only you
