

Remember When

HalfNoise

I welcomed, the sorrow
It came so vastly
I turned to hide myself
Wonder, wonderful

Tell me how the joyful sounds
Tell me where the joy is found
I remember when, remember when
My joy was found

It takes a lot to show
I've got to let it go
It takes a lot to know
I've got to let it go

I remember when, remember when
I remember when, remember when
