

Snip Snap

HalfNoise

She was quite the lady
Call me crazy
A little package from above

When the days feel kinda hazy, a little phasy
A need a little more - tender touch

Snip snap
I need you back
Snip snap
I need you back oh oh oh
Snip snap
I need you back
Snip snap
And just like that oh oh oh

There's no rhyme or reason
A fuzzy feeling
A lil' magic from above

And when the days feel kinda wavy
A little shaky
I need a little bit more tender touch

Snip snap
I need you back
Snip snap
I need you back oh oh oh
Snip snap
I need you back
Snip snap
And just like that oh oh oh

A little package from above
A little package from above

1, 2, stop

Snip snap
I need you back
Snip snap
I need you back oh oh oh
Snip snap
I need you back
Snip snap
And just like that oh oh oh
