

Someday

HalfNoise

What's a boy to do
If I don't get the clue
And you're on your way out
Something strikes again
And I don't get the hint
Then I get let down, let down

But someday, I'll have your love
Someday, I'll have your love
Someday

What do I gotta do
When all I want is you
And you're just on your way out
If I keep giving in
And you stay on the fence
Will you ever come down, come down

But someday, I'll have your love
Someday, I'll have your love
Someday

Someday...
Your love someday

Someday I'll have your love
Someday, I'll have your love
Someday
Someday
