HalfNoise

To know you like I never have before  
To love you like I never have before

Say it's old  
The life we felt  
And how it tapes you  
Oh to the ground  
Say it's old  
Our life we felt  
And how it tapes you  
Oh to the ground

To wonder like I never have before  
To brother like I never have before

I know it's not over  
I know it's not over  
I know it's not over

You've taped us to the ground  
But I'll stay with you now  
You've taped us to the ground  
But I'll stay

Say it's old  
The life we felt  
And how it tapes you  
Oh to the ground

Say it's old  
(I know it's not over)  
Our life we felt  
(I know it's not over)  
And how it tapes you  
(I know it's not over)  
Oh to the ground

I know it's not over
