

That's Just Why

HalfNoise

We don't live in the real world darlin'
We only live in our fantasy
We're not looking for all life's answers
Because we know they're just make believe

This kind of dreaming can turn ones head down
That doesn't happen to you
That magic feeling that spins the world around
I'm wanna give to you

Ooo that's just why
Ooo that's just why
We see tomorrow and we feel fine
And that's our style

We don't live in the real world do we?
We all just see what we want to see
We'll stop looking all life's answers
Because we know it'll set us free

There's a commotion that turns their heads around
But no distraction for you
The same devotion that spins the world around
I'm gonna give to you

Ooo that's just why
Ooo that's just why
We see tomorrow and we feel fine
Yeah that's our style

Ooo that's just why
Ooo that's just why

Why
Why
Why
