

Hell's Last Survivor

Halford

I cry from the madness
Then reach for a hand
Stay on the lifeline
Till I understand

I watched my worlds collide
And drive me underground
I've been to Hell and back
And beat the Devil down

I'm all I have
I'm all I need
The last survivor

I fought and won
And now I'm free
The last Survivor

I prayed for deliverance
Grown from the guilt
Lived from the bottom
Destroyed what I built

I watched my worlds collide
It drove me underground
I've been to Hell and back
And beat the Devil down

I'm all I have
I'm all I need
The last survivor

I fought and won
And now I'm free
The last Survivor

I will survive
I will survive

I'm all I have
I'm all I need
The last survivor

I fought and won
And now I'm free
The last survivor
