

## Sad Wings

Halford

Who can say they've never made mistakes  
Only fools will suffer what they make  
Owning up rids poison when you can  
Admitting you were wrong makes you a man

It's everywhere  
But do you care?

Sad wings of destiny  
Where have they gone?  
I know eternally  
I'll carry on

Did you think that I would disappear?  
Were you so dried up from all your fear?  
Thought you'd make me feel impossible  
You were wrong now who looks like a fool?

It's up to you  
What did you do?

Sad wings of destiny  
It used to burn  
I know that faithfully  
I'll see you turn

It's everywhere  
But do you care?

Sad wings of destiny  
Where have they gone?  
I know eternally  
I'll carry on

Sad wings of destiny  
It used to burn  
I know that faithfully  
I'll see you turn

Sad wings of destiny  
Sad wings of destiny
