

## We Own The Night

Halford

We're not alone, we have a chance you see  
Let's live the dreams we have in life  
There's nothing left if you can't walk with me  
You know we need to put it right

We own the night  
And whatever comes our way  
Nothing will hold us back  
When we love and we obey

When I'm with you, you give me all your strength  
And with your love I carry on  
Well we both know it takes the two of us  
To face the truth don't need to run

Let's take tonight  
And forget about the day  
Stand at the edge of life  
Let the stars come out to play

You wait and see  
Our light will grow and grow  
Open eyes will realize  
The ray of life to hold

Our world of calm  
It sings right from the heart  
Can you hear the storm of fear  
Can't tear this love apart

If we don't leap for faith  
How can we be free  
We can't deny or say goodbye  
We found our destiny

Don't leave me alone  
I can't stand the thought of being here without you  
My heart turns to stone  
Look in my eyes, my words are true

I'm not alone  
But ships pass in the night  
Hold me now, hold me now  
Before my heart takes flight
